Project Design Phase I

## Solution Architecture

Date	6 October 2022
Team ID	PNT2022TMID12009
Project Name	Project - University Admit Eligibility Predictor
Maximum Marks	4 Marks

Solution Architecture:

Solution architecture is a complex process – with many sub-processes – that bridgesthe gap between business problems and technology solutions.

Solution Architecture Diagram:

Solution Architecture:

1. Application developer builds a python based app and deploys it.

2. Students can enter the data through a we based application.

3. When Student submits data can be trained in the background and get back theresult.

4. Based on the result, the quotes will be sended to the user interface.

5. This result is displayed to the student.
